Group II: Claims 6-10, 12, covering a combination with an agent selected from levodopa, levodopa with a selective extracerebral decarboxylase inhibitor, carbidopa, entacapone, anticholinergic, a COMT inhibitor, an A2a adenosine receptor antagonista, a cholinergic agonist, a dopamine agonist, a butyrophenon neuroleptic agent, etc.

The Examiner has also required election of a single species from each group, in the event that no generic claim is allowable.

Favorable action is earnestly solicited.

Respectfully submitted,
